

Budget study — website redesign & booking system

Scope: website redesign (Next.js), booking system rollout, local SEO, payment options. · September 2026

1 · EXECUTIVE SUMMARY

Set-up budget: €0. Recurring costs: **€0/month**. Only annual expense: **domain renewal ~€12/year** (already owned). A single recovered enrolment (> ~€12) pays for the entire project. The whole redesign is delivered as a free prototype by an engineering student from UTC.

2 · DETAILED COSTS (SCENARIO A — RECOMMENDED)

ITEM	TYPE	COST	COMMENT
Website design & development	One-time	€0	Prototype (UTC engineer), on-brand
Hosting + deployment (Vercel Hobby)	Monthly	€0/month	100 GB traffic/month included — far above a studio's needs (< 5,000 visits/month)
Booking database (Google Sheets)	Monthly	€0/month	Unlimited for this use
Booking script + emails (Apps Script)	Monthly	€0/month	Gmail: ~100 emails/day included, real need < 100/month
Map / directions (Google Maps)	—	€0	Free embed
Local SEO (Google Business Profile, Search Console)	—	€0	Quick setup, essential to appear on Google
Domain adrenal-in.com	Annual	~€12/year	Renewal of the existing domain
Total set-up	—	€0	—
Total recurring	—	€0/month	+ ~€12/year (domain)

3 · SCENARIO B — ONLINE PAYMENT OPTION (TO BE DECIDED WITH THE MANAGER)

If online payment is wanted down the road: **Stripe. No subscription, no set-up cost** — commission only **per collected transaction**.

CARD COUNTRY	STRIPE FEE	EXAMPLE: €10 TRIAL
European card (SEPA)	1.5% + €0.25	~€0.40 / transaction
Non-European card	2.9% + €0.25	~€0.54 / transaction
3,600 trials / year (high-end: 300/month)	≈ 1.6%	≈ €1,440 / year

Approximate standard Stripe France fees (2026); to be confirmed at sign-up. The actual cost depends only on the volume collected.

4 · BENCHMARK: COST OF A WEB AGENCY (SAVINGS GENERATED)

STANDARD AGENCY SERVICE	PRICE RANGE	THIS PROJECT	SAVINGS
Design + development redesign	€2,000 – 6,000	€0	€2,000 – 6,000
Monthly maintenance / hosting	€30 – 150/month	€0/month	€360 – 1,800/year
Custom booking system	€500 – 1,500	€0	€500 – 1,500

5 · TIME INVESTMENT

STEP	TIME	STATUS
Website redesign (prototype)	~15 h	Done
Booking activation (Sheets + Apps Script)	~1 h	To do (Google side, guided)
Deployment + domain connection	~0.5 h	To do
End-to-end tests (form → sheet → emails)	~1 h	To do
Urgency/FOMO features (sticky bar, badges)	~2 h	Option
Monthly review of requests	~15 min/month	Recurring

Remaining total: ~4 to 5 hours spread over weeks 1 and 2 (see Gantt chart), excluding pending decisions.

6 · ASSUMPTIONS & LIMITS

- The trial class is paid **at the studio** in Scenario A; online payment (B) is a later option.
- Emails are sent from the studio's **official Google account (Gmail/Workspace)** (to be provided).
- Content to be confirmed by the manager: real class schedules, rates (if a text table is wanted), Google reviews to collect.
- Vercel/Stripe plans evolve; check prices before any payment decision.

7 · CONCLUSION

The project is **financially risk-free: €0** to start, **€0/month** to run — the only cost is the domain renewal (~€12/year). Compared to an agency (€2,500 – 7,500 initial investment + maintenance), the savings amount to **several thousand euros**, with an equivalent website, faster to launch. The only requirements: the manager's **green light** and the studio's **Google access**.

Document issued in September 2026 by the UTC engineer behind the prototype. Figures are indicative; to be confirmed with the studio owner.
