

Go-live plan — weeks 1 to 6

From 21 September 2026 to 30 October 2026 · prototype already delivered upstream (demo session + manager's decision in week 1)

**Constraints:** week 1 gates everything (green light + studio Google access). Deployment (W2–W3) only depends on the script activation; SEO, FOMO and Stripe are independent and can overlap. Overall cost of the plan: €0 (see budget study).
